

Classic

Classic Table Specifications

- Available in 254cm x 127cm (9 foot).
- Built to meet or exceed all BCA specifications.
- All parts are CNC routed for uniform fit and each part is interchangeable.
- 3-piece slates, 30mm, doweled, floated by CNC equipment.
- Artemis cushions with K-66 profile.
- (4) 10" diameter solid wood legs with built-in brass levelers and a solid wooden sub-frame.
- Tables come complete with Simonis 860 cloth.
- Welded steel frame: 5/16" U-beams for the most accurate slate support, 10 internal levelers, eliminating the use of any kind of shims.
- Rails are mounted with 18 vertical bolts.
- Pockets liners are flush-mounted with the rails; pockets are made of marine grade vinyl and easily installed with bolts.
- Rails are available in Jatoba hardwood and are inlayed with 18 sights.

Hardware

Gabriels uses machined hardware; these retain their rigidity after repeated reassembly.
