

Imperator Classic

Imperator Classic Table specifications

- Available in 284cm x 142cm, 230cm x 115cm, 210cm x 105cm.
- All parts are CNC routed for uniform fit and each part is interchangeable.
- (8) 10" diameter solid wood legs with built-in solid brass levelers and a solid wood sub-frame. (230 and 210 tables come with 6 legs).
- Welded steel frame: 10cm x 10cm I-beams for the best possible slate support.
- Heating system incorporated in the steel frame, electronic thermostat 110v or 220v.
- Kleber or Artemis cushions in P37 profile .
- Rails are available in Jatoba hardwood with a gloss or semi-gloss finish and are inlaid with 28 sights.
- 3-piece slates 50mm, doweled, dry floated with CNC equipment.
Match tables (284cm x 142cm) with 60 mm slate.
- Tables come with Simonis 300 Rapide cloth, and include the cushions covered.

← *Solid brass levelers are not only beautiful, but make for easy leveling of the table and are resistant to corrosion.*

Gabriels uses massive 10cm x 10cm steel I-beams to make the frame for the Imperator and Imperator Classic carom tables. This insures stability for the 60mm slates.
